STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1883. My health was much shattered by Rheumatism when I commenced taking BROWN'S IRON BITTERS, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all. I cannot say too much in praise of it. Mrs. MARY E. BRADSHAW, 173 First Street.

Kidney Disease Cured.

Christiansburg, Va., 1883. Suffering from kidney disease, from which I could get no relief, I tried BROWN'S IRON BITTERS, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results. J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 3, 1882. After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try BROWN'S IRON BITTERS. I have used two bottles and never found anything that gave me so much relief. Mrs. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

Riffe man, a celebrated stallion, owned by J. C. Tyler of Shasta county, died Friday night, aged 29 years. He was reputed to be one of the best stallions in America. His pedigree, in possession of the owner, is traced back to the year 1400.

May Woodman, at Tombstone, in jail awaiting trial for killing "Billy" Kluman, gave birth to a stillborn child five months old. She had declared several times that the child should never be born alive, and jumped from a ladder to the floor, a distance of 10 feet, with the result above stated.

At New Tacoma Saturday the steamer San Pedro, loaded with coal, became unmanageable and plunged into the wharf, wrecking it for a space of 80x50 feet, severing the water pipe, tearing up two railroad tracks, carrying before her some freight cars and making a complete wreck of that much of the wharf.

An attempt was made on Sunday to wreck the excursion train running from Sacramento to Folsom. Domingo Soto threw some large sticks of wood from the tender on the track in front of the first car. It appears that the offender had some trouble previously with the conductor. No harm was done, and Soto is now locked up in Folsom.

In the Oakland races Saturday, Wildfire won the five-eighths of a mile dash for two-year-olds, beating Rutherford in 1:05. Lucky B. defeated Augusta E. in 2:25, dash of 1 1/4 miles, for three-year-olds. In the dash of 2 1/4 miles, Fred Collier beat his competitor easily in 4:04. The last was a hurdle race, and was won by Theo. Winters' Hattie B.

WHAT MAKES TRAMPS.

Society is largely to blame for the tramp nuisance. It is becoming difficult and rather unfashionable for boys to learn trades. Fifty years ago there were no tramps, but there were plenty of apprentices. Then everybody could learn a trade; now boys are shut out by the arbitrary laws of trades' unions; manufacturers dare not employ any boys, and the beneficent, time-honored apprenticeship is entirely abolished. Boys without trades grow up without education, and become idle members of society, living upon their relatives when times are good, and when they cannot keep them longer, the youngsters are turned loose upon society, perfect outlaws. If the apprentice system can be again introduced we shall see a wholesome change. Tramps are the result of the abolishment of the apprentice system; let us encourage home manufactures by teaching trades to the young.

EDITORIAL NOTES.

It is said that there is about to be an organized effort made to abandon the Walker Lake Indian Reservation. Why a few Piutes should have the exclusive right to so fine a tract of land is not apparent, except to those who have fingers in the reservation pie. It would, if thrown open to white settlement, make half a dozen places as thrifty as Mason Valley. Pyramid reservation is enough for the Indians, who should be taught to depend upon their own efforts and not lean upon the Government.

An inventor has obtained a patent in England, says the New York Post, for the manufacture of what he dignifies by the name of "wine." It is a mixture of cane-sugar and glucose, colored with certain dyewoods, orchella weed, sorrel-paste, etc., according to fancy, and subjected to fermentation. Similar mixtures are made abroad—and made so cunningly that upon analyzing they show no products but what are found in the genuine juice of the grape.

The Eastern papers have got hold of this bit and are circulating it. Where did it come from?

A Nevada Indian has just been awarded \$15,000 damages from the Southern Pacific railroad for the loss of a foot.

The Jews in Great Britain are said to have more children who can read and write, in proportion to their number, than any other denomination.

Mr. Blaine predicts that Randall will be the next Speaker, in spite of the free trade and tariff for revenue clamor. Mr. Blaine usually knows what he is talking about.

Wiggins, the Canadian weather-sharp, was not much out in predictions. He made a mistake of about a month; that's all.

Ben Harrison is greatly surprised that he should be looked upon as a Presidential candidate.

A new trade paper is named the Corset. It has come to "stay."

HILL AND TELLER.

The Senator Prods the Secretary With a Pointed Pen.

TEXAS NEGROES ON THE WAR-PATH

Interesting Items of Foreign and Domestic News.

[PRESS DISPATCHES TO THE GAZETTE.]

WASHINGTON, April 30.

The unpleasant personal relations which it is understood have for some time existed between the Secretary of the Interior and Senator Hill of Colorado have at last manifested themselves in such a way that wide publicity will be given to the causes of their disagreement. Senator Hill, who has been greatly irritated by misrepresentations of his language and purposes by Secretary Teller, as well as by the removals of his friends from positions in the Interior Department, has written a letter to the Secretary, in which he complains bitterly of the latter's behavior toward him and attacks vigorously Teller's management. Hill gives his opinion of the mismanagement of the department. Beginning with his personal grievances, he charges Secretary Teller with attempting to place him in a false and unpleasant position by causing to be published unfair and inaccurate reports of his statements and requests.

He asserts, furthermore, that the Secretary has been guilty of violation of ordinary courtesy in repeating to newspaper correspondents for publication that which had been said to him in a private interview. After reviewing carefully the position taken by Teller in the last campaign in Colorado, Hill takes up the Secretary's administration of the affairs of the Interior Department and subjects it to a detailed criticism and severe censure. Referring to the lease of the Yellowstone National Park, he says Teller revised and dictated its terms and then allowed his Assistant Secretary to take all the blame and public disapproval which followed its execution after Congress had ratified the lease. The Secretary evaded both the letter and spirit of the law and practically gave the Rufus Hatch syndicate a monopoly of the entire park.

In dealing with questions which arose in connection with the public domain, and particularly those growing out of lapsed land grants, he charges Teller with acting in the interest of the great monopolists and against all interests of the Government and the people. He also asserts and attempts to show that Teller has been connected with a number of land frauds in Colorado. In conclusion he reviews the manner in which the patronage of the Interior Department has been dispensed since the appointment of Teller, and cites a number of instances in which persons notoriously unfit and incapacitated have been given places, while experienced and able employees have been without any assigned reason dismissed. Among the latter he refers to Albert Johnson, late Surveyor General, a gentleman of high character and fine attainments, who, he says, was dismissed by Teller because he would not award surveying contracts to the latter's friends.

NEW YORK, April 30.

The Tribune publishes the substance of Hill's letter to Teller. He says: Since your entry into the Cabinet you have on more than one occasion sought to place me in a false position by securing the publication of cunningly devised interviews in special dispatches, newspaper letters and the like, concerning Colorado matters. While you have attempted to conceal your hand, your connection with this mode of attack is easily traced. With immense patronage at your command but little difficulty will be experienced in continuing this personal warfare. Unscrupulous persons may be easily found who, in consideration of what you can best owe without cost except to the Government, will be quite ready to respond to your demands in this direction.

In dispatches it has pleased you to picture me as jealous of yourself. Permit me to say that if there be anything in your career, either socially, professionally or politically, occurring before or since you became Secretary of the Interior, warranting praise to the heart of any reputable citizen, I fail to discover it. Certainly there is nothing which should gangrene one with jealousy of your connection with the last campaign in Colorado, in view of the fact that your protracted absences from Washington to engineer the nomination and election of a gubernatorial candidate resulted in the repudiation of your nominee and the election of a Democratic Governor for the first time in the history of the State. The excuse you gave for drag-

ging your official robes through the sewage of ward politics, as you did repeatedly during that campaign, was that it was necessary in defense of the administration, and yet the administration was nowise in question.

The harvest of your campaign in Colorado in so-called defense yielded a Democratic Governor, a Democratic State Senator from your own county, and the choice of Taboras Senator in the Congress of the United States. I am reminded that after the meeting of the Republican State Convention in September last it was patent in Denver, and commented on in the public prints, that Mr. Meldrum, who now succeeds to the office of Surveyor General, had withdrawn his candidacy for the gubernatorial nomination in favor of your friend Campbell in consideration of pledges that he should receive an important Federal position. Had your candidate stated this fact to the President, explaining that the removal of Johnson and the appointment of Meldrum were consequent upon a political bargain, it would have been at least truthful and manly.

Pending the first session of the 47th Congress, when 800 or more clerical positions in the pension office were to be filled, you notified Republican Senators and Representatives that two places each were at their command. After these appointments had been thus disposed of you awarded a large proportion of the several hundred remaining clerks to the opposing party. Of five timber agents appointed by you from Colorado one is a defaulter of the Postoffice Department, against whom the Government has obtained an uncollectable judgment of some \$5,000, and yet he is permitted to draw his salary in violation of the express statute to the contrary. One of these appointees had recently been removed from the railway mail service for gross negligence of duty, a fact of which you were fully advised.

The activity of some of these persons during the late campaign strongly suggests that they are much more earnestly at work in furthering your political schemes than in suppressing timber depredations.

H. H. Eddy of Summit county, Col., appointed Special Assistant United States Attorney for New Mexico, and the appointment of Peck as traveling examiner or agent for the Pension Office, are cited as cases in point. Of like purpose was your action in the case of Wilcox, whom you sought to inflict upon the people of Colorado as United States Marshal, notwithstanding there were papers on file in the Department of Justice, including the testimony of one of the most respected citizens of Denver, demonstrating his total unfitness for any place of honor or trust. Falling in with this you embraced the earliest opportunity to appoint him to the San Carlos Indian Agency, where he has lost no time in maintaining his previous reputation and in which effort it seems he is protected.

Murderous Blacks—Three Negroes and a White Man Killed.

MARSHALL, Tex., April 30.

At Gladwater two negroes tried for a trivial offense and convicted were ordered to the jail at Long View. Officer Bradshaw had them in charge at the railway depot, waiting for the train, when an attempt was made to rescue them. Bradshaw, fearing trouble, had summoned two citizens to aid him, and a general firing resulted, during which officer Bradshaw and three negroes were killed. In response to a telegram a sheriff and posse from Long View repaired to the scene. The negroes are armed and defy the officers. It is feared more serious results may follow.

A Slugging Match in which One Man is Fatally Beaten.

CHICAGO, April 30.

The police learned late to-night that a prize-fight occurred near the lake on Sunday, between John Kelly, a New York bruiser, and Rodney, alias Yank Cunningham, a bartender for Alderman Appleton. It was a slugging match from the beginning. Eight rounds were fought in 25 minutes, and both men were dreadfully punished. Kelly had his face cut and nose broken. Cunningham lost four teeth and it is believed had his skull fractured. The fight was awarded to Kelly. It is believed Cunningham will die. The police are in search of Kelly.

Horse-Race Against Iron.

BOSTON, May 1.

A six days' match for \$2,000 of horses against bicycles, between Chas. Leroy on horses, and Jno. S. Prince, the 20-mile champion of America, and Wm. M. Woodside of Ireland, an bicyclist, began to-day. The horseman uses as many horses as he chooses, and the bicyclists will relieve each other at intervals. The race will be run from 12:30 to 10:30 each day. At 10:30 to-night the score stood—horses, 17 miles; bicycles, 16½ miles.

Beginning of Labor Strikes in Pennsylvania.

PITTSBURGH, May 1.

Reports from the railroad coal mines are meager, but enough has been received to indicate that a general strike was inaugurated to-day against a reduction of half a cent per bushel in

the price of mining. On the Panhandle roads only four out of 22 pits are reported to be at work. On the Pennsylvania road all the mines are idle. On the B. & O. and P. V. & C. about half are out. One or two firms are reported to have acceded to the miners' terms.

The demand of cigar workers for an advance of one dollar per 1,000 has been conceded by all manufacturers, consequently only the employees of four large establishments were ordered out by the Cigar-makers Union this morning. It is thought the strike will not last a week.

The plasterers all quit work this morning because of the refusal of masters to pay an advance of 50 cents per day.

Sitting Bull Coming Into Uncle Sam's Fold.

ST. PAUL, May 1.

Information has reached department headquarters that on Saturday last the steamer W. J. Behan left Fort Randall for Standing Rock, having on board 150 men, women and children of Sitting Bull's band of Ucapapa Sioux, the old warrior being one of the party.

The First Operations of the New Revenue Law.

RICHMOND, Va., May 1.

The collector of internal revenue for this district has issued since midnight of last night stamps under the new law for nearly 2,000,000 pounds of manufactured tobacco, 4,000,000 cigarettes and 1,000,000 cigars, the tax aggregating in round numbers \$165,000.

An Old Affair Revived.

NEW YORK, April 30.

The veterans of the Fifth, Ninth and Tenth volunteer regiments declare that the retirement of General Warren by General Sheridan at Five Forks was unnecessary and not warranted by circumstances.

The Bosses Yielded.

CHICAGO, May 1.

About all the manufacturers of cigars have conceded to the demands of the workmen for an advance of \$1 per \$1,000. There will be no strike to-morrow of any considerable proportions.

Beware of the Deadly Soda Water.

SYRACUSE, N. Y., May 1.

A soda water fountain exploded here to-day, fatally injuring one and seriously injuring two persons.

FOREIGN TELEGRAPH.

[PRESS DISPATCHES TO THE GAZETTE.]

Banquet to an American Telegrapher in London.

LONDON, April 30.

A complimentary banquet was given to-night to Dr. Norvin Green, President of the Western Union Telegraph Company, by John Pender, Member of Parliament. There was a large number of guests, among whom were Sir Hussey Vivian, Sir Sydney Waterlow, Professor Rogers, Gabery Armitage, Sir Geo. Elliott and many other notables. Dr. Green, in response to a toast, concluded a speech as follows: "It is said that the sun never sets on British soil, but it takes nine hours for it to rise on our telegraph system. We claim to do the sharpest of telegraphing work. As for instance, the closing London prices at 3 P. M. are published in the San Francisco evening papers. I have seen a New York clerk dispatch a commercial message from the Produce Exchange to Chicago and receive an answer while waiting at the counter." He concluded with expressing thanks for the honor done him.

A Nihilist Conspiracy in the Russian Army.

ST. PETERSBURG, April 30.

Eight officers, including a Colonel, have been arrested here on suspicion of being connected with Nihilists, and 16 officers have been arrested at Smolensk. It is stated that a wide-spread military conspiracy has been discovered. Documents have been found showing that the coronation of the Czar would be undisturbed, but that something very serious would happen soon after.

The Mysterious Death of a Young Milliner.

SAN FRANCISCO, May 1.

The mysterious hiding of the death of the young milliner, Lottie Hensinger, reported last evening, is exciting the attention of the police authorities. Chief of Police Crowley had the matter under investigation this morning, and although the facts and cause of death are still shrouded in mystery, it is the belief that the cause of the death of the young woman was from an overdose of a preparation of nuxalga pills, known as Dr. Fowler's pills. The matter is being further investigated.

IRON RANCH FENCE.

The boss ranch, farm and vineyard fence is now in the market. It is built with iron posts and barbed wire; the post being made of wrought and cast iron. The top of the post is made of one-inch gas pipe and pierced with holes through which a plain wire is inserted, which fastens the barbed wire to the post. The post is cast with three flanges and is twenty-one inches long. The flanges render the post immovable when inserted in any soil.

These posts are placed two rods apart with an iron stay between them, and there can be any number of wires and any kind of wire used.

Three men can build one mile of fence per day on good ground.

Fire cannot burn or injure it; cyclones will not move it, and floods cannot wash it away.

I sell fence loaded on cars in San Francisco at \$1 per rod for three-wire fence, and \$1.25 for five-wire fence complete, and to agents at reduced rates which enable a good live man to make from \$100 to \$500 a month on an investment of a small capital in territory, and any one wishing to purchase any county, State or Territory, can get a bargain by calling on or writing me of his desire.

This is a rusty old May-day. A picnic on the top of Mount Rose would have been the correct thing.

The Truckee is rising steadily. The water is at times quite muddy, showing that loggers or somebody else are stirring it up.

Just received the latest evening shades of nun's veiling, suitable for party dresses; also French satens, at I. Barnett's.

It snowed all night on the Summit, and at intervals on both sides. At Truckee considerable fell. It seems as if winter were just beginning to exhibit its meanness, just as lumbermen are getting to work.

Zeigler's meat wagon went up Commercial Row at a flying gait this morning about 5 o'clock with a scared horse in front, while the driver was getting an eye-opener. The animal was probably mad because he wasn't asked in to take something.

While France and Germany prosecute the American pig, Sweden is manifesting a similar aversion to the American potato, and proposes to restrict its importation; but nobody has an aversion for George Becker's beer, because it is a healthful and delicious beverage that everyone likes. To be well dressed is the first requirement of a gentleman, but, as the question sometimes arises as to where the best quality of goods, with good fitting and prices to suit the times, can be had, we advise intending customers to step into the splendid establishment of Abrams Bros., the White House, and select an outfit from the extensive stock to be found there.

A shark swimming about a schooner off the Florida coast swallowed an alarm clock that accidentally fell overboard, and when, about two hours later, the alarm rung inside of him, his terror was so great that he jumped 20 feet out of water, and deckhands on the boat had to lie down to laugh. If a man wants to laugh and be happy let him go to Chase & Thyes' and get an exhilarating cordial. It will make him feel so good that he will grin all over. Chase & Thyes know how to do things, and Dusy is not a bit behind.

PLUMAS ITEMS.

News Culled from the Columns of Our Quincey Exchange.

The National of April 25th contained the following:

Business is improving and lots of work is going on.

Ellis Wing of Crescent was badly hurt by falling down a shaft.

"A splendid success" was the general and universal verdict by those who were in Quincy on Thursday last to attend the anniversary celebration given by Plumas Lodge, No. 88, I. O. O. F., on that day.

A meeting of the prominent citizens of this valley was held on Saturday last to take action regarding the purchase of Rockwell Park, and raising the necessary money to bid for the fair. The action will result in the purchase of Rockwell Park, and probably in the location of the next fair meeting at this place.

A FINE FENCE.

Iron Posts and Wire Rails Put up By the Mile.

Mr. Skeleton has a small sample of his patent wire fence and iron posts set up on the north side of the plaza. It is very substantial and looks as if it would resist almost any shock. There is no work at all lost in putting it up. The post is driven into the ground with a few blows of the sledge. The wire is laid alongside at the proper place and fastened by a turn with a short wire which runs through a hole in the post. Those who know say it is an excellent fence for the large stock ranges far from timber, and that it is the cheapest fence ever built. Mr. Skeleton invites everybody to examine the portion he has put up and beat it if they can.

Clarke. This is the J. & K. under another name.

EXCURSION TO THE EAST.

A Party of Californians Who Want to See the Country.

A large party under the management of Rev. H. H. Rice of Sacramento will pass through Reno to-morrow on the early emigrant train on a trip east. The emigrant cars have been specially fitted up for the company. Neat curtains have been provided, the cars being ornamented with bunting and otherwise decorated, says the Sacramento Bee. They will have many conveniences provided by the tourists to make the trip pleasant and comfortable. The passengers are well provided in the way of eatables, and have their own bedding for the berths. The interior walls will be ornamented with painted plaques and otherwise beautified. More pleasure in the enjoyment of mountain scenery is expected than can be gained by a rapid trip. Two cars come from Oakland and San Francisco with a select party, and one car is occupied by Sacramentoans, who have as their porter the colored sexton of the church whose pastor will be in command. The Sacramentoans are: Rev. H. H. Rice and wife, Mr. and Mrs. Wylie, Nelson Cornell, wife and son, F. B. Brown, wife and sister, Daniel Brown, Mrs. Mary Burke, Mrs. H. M. Bradley and daughter, Miss Mattie K. Powers, Mrs. S. P. Taylor, Miss Buchanan, Mrs. J. Armstrong, Mrs. James Funchon, Mrs. H. P. Martin, Mrs. H. W. Klay and son, Mrs. A. B. Cheaney and three children, Mrs. Muffy, Wm. Pernell, Mrs. John E. Murch, F. Hegaboom. They will stop over one day at Ogden and go to Salt Lake. At Ogden similarly fitted cars will be ready to carry the passengers to Omaha, thence they will go by chartered first-class cars to Chicago over the Rock Island route, stopping in that city one day. Then they will go to Niagara over the Grand Trunk route, and stop 18 hours; then to New York over the Erie route, arriving Saturday evening, May 12th. Boston excursionists will go to New York by Fall river boats. No arrangements for return have been made. The members of the party will most probably return at will.

Grand Chancellor R. B. Mitchell has taken the preliminary steps for the organization of a lodge of Knights of Pythias at Elko.

J. H. Mitchell, a commercial agent who has probably gone over more ground than any other man on the coast, came in from the East last night, and left this morning for Bodie and the southern country in general.

West. Hall, the engineer, went out this morning with 180, pulling the east-bound passenger, having been temporarily changed from 213, his pet machine that supports the east-bound nigger. Several other changes, in this respect, have lately been made.

Anthracite Coal-Burning Locomotives Work Successfully.

George Van Brunt, of the Baldwin Locomotive Works at Philadelphia, arrived here a day or two ago to put up and run the two new engines just received by the Carson & Colorado road. He is constantly employed in this manner. When a locomotive is sold he puts it in running order and fully tests it before it is delivered to purchasers. He has just come from Denver, where he set up and put in order some anthracite coal-burners for the Denver and Rio Grande road, which, he says, are completely successful. One of them ran 120 miles over a mountain section of the road with three fires—that is, the fire-box was filled with fuel three times during the trip. Van Brunt says there is better anthracite coal in the Gunnison country of Colorado than anywhere in Pennsylvania, and that some day it will become a great coal producing region.

A Skunk Ranch.

A man on Cow creek, Tuolumne county, is making money running a skunk ranch. The animal's secretion, so offensive to the Caucasian nostrils, is highly prized by Chinese as a medicine, and they pay a large price for it. Ridiculous as it may appear, this man is experimenting as to whether the secretion cannot be extracted from the skunk by milking.

THE TRIENNIAL CONCLAVE.

Programme of the Grand Masonic Display Next August.

On Saturday Grand Commander George C. Perkins of the Knights Templar of California issued general orders No. 1, dated April 28, 1883, in regard to the 22d Triennial Conclave of the Grand Encampment of the Knights Templar of the United States, to be held in San Francisco next August. The week's programme, so far as arranged, commences with Saturday, August 18th, when the Commanderies of California will receive and escort visiting Knights; Sunday, 19th, divine service at the Mechanics' Pavilion; Monday, 20th, grand parade and review, with reception at the Grand Opera House and promenade concert at the Pavilion; Tuesday, 21st, opening of the Conclave and grand concert in the evening at the Pavilion; Wednesday, 22d, grand banquet, tendered by the Grand Commandery of California to the Grand Encampment; Friday, 24th, laying of the corner stone of the Garfield monument; Saturday, 25th, grand competitive prize drill at Bay District track; Saturday evening, awarding prizes and closing promenade concert at the Pavilion. Excursions in the harbor and various points to be arranged each day, except Monday and Saturday.

The grand parade and review have been fixed for the day immediately preceding that on which the Conclave will be opened. The parade will be so arranged that all who participate will be able, under favorable circumstances to view the entire line at least twice. The Grand Master and staff will be mounted, and will review the line on Van Ness avenue. At another point on one of the widest streets, the lines will be formed on both sides of the street, leaving the center of the street clear; the Grand Master will be escorted through the lines, which will then break by divisions, until the whole column has passed through. The desire is to give the delegations from the different States as much prominence as possible, and each Grand Commandery will march with its banner displayed.

MODOC ITEMS.

Gleaned from a Local Paper of That County.

The subjoined items are taken from the Independent:

Joe Kerr of this place is engaged in making butter firkins in the timber at Canyon creek.

The people of Bieber and vicinity are engaged in planting fruit and ornamental trees—an example that should be followed throughout the entire county.

Hon. C. Stevenson, who was a member of the Constitutional Convention, died suddenly at Millville, caused by the bursting of a blood vessel.

An effort is being made to have the next annual fair of this district held at Susanville. There is an appropriation of \$1,700 for premiums, and the people of this county ought to assist the people of Lassen in their endeavors, and then make an effort to get away with a portion of the prize money.

Diphtheria and Scarlet Fever.

The Chicago homeopathic doctors have been talking over diphtheria and scarlet fever and agree on several points. They say the second case in a family is more apt to die of the disease than the first case is, and on this fact they base a very remarkable plea for more thorough and effective isolation. There was also talk of the danger of carelessness at funerals. One of the brethren, however, while endorsing all this in theory, said queer things did happen. He could recall an instance where isolation and thorough disinfecting were resorted to at once, yet the disease ran all the way through the family, while in another case, also in his experience, where isolation was impossible, one person had the disease and none of the others took it, though they had all the chance to that was possible. Hence, as was wisely observed, all is not known about its ways. Blonde complexions, it was observed, indicate a susceptibility to diphtheria.

DECORATION DAY.

A Call for a Meeting of Citizens To-Morrow Night.

Captain Moger of the Reno Guard handed the GAZETTE the following this afternoon, which explains itself:

Members of the Reno Guard, Grand Army, and citizens generally, are requested to meet at the armory of the Reno Guard, Odd Fellows' building, on Wednesday evening, May 24, at 8 o'clock, for the purpose of making arrangements for the proper observance of Memorial Day, May 30th.

The Wine House.

This favorite establishment is becoming more and more popular with its patrons, who are pleased with the treatment they receive there. The wholesale business is growing steadily and has cut a large slice off the business of San Francisco drummers, who until a few months ago had things pretty much their own way in Nevada; but now Chielovich & Co. are taking the lead and are supplying liquors to their customers by wholesale at prices which others cannot compete with.

THE NEW VALVE MOTION.

The Old Forty-Eight on the Road and Working Finely.

The Record-Union says Master Mechanic Stevens has recently obtained a patent on the valve motion recently described at length in the GAZETTE, and which may revolutionize the engines of the world. It is for side valves, and consists in having a valve for each end of the cylinder operated by independent valve stems. The stems are connected with a carrier bar at a point between the steam chest and the rocker. The carrier is connected with the cross-head in such a way that lap and lead are given to each valve independently, and remains constant for all points of cut-off. Motion is given to the rocker by one eccentric, and the engine is reversed by an intermediate connection working above or below the center of the rocker on its outside arm. The result of this arrangement is to give a variable motion to the valve in its travel that resembles greatly the effect produced by an independent cut-off motion; the effect being reduced by less than one-half the number of connections and with the use of but one eccentric. The indicator cards taken by this motion show a more economic use of steam than is obtained by the shifting-link motion, the valve opening quick to receive steam and maintaining a free expansion to the point of compression. One engine has already been fitted up with the new motion, and is now in service, running between Sacramento and the Bay. It gives perfect satisfaction. It is claimed that by the new motion much more power can be obtained with the same amount of steam than by the motion now in use. It is also less expensive for construction, and being much more simple is less liable to wear or to get out of order. This is a problem which mechanics in the East have been trying to solve for many years.

TAILORING ESTABLISHMENT.

MY REPUTATION AS A TAILOR is already established. "The Boss Tailor" lives in all country towns. They advertise shop-worn auction goods; they dispose of cloths not saleable in the larger cities, and are continually trying to mislead their patrons by false representations. Retires no exception to the rule. She has a "Boss Tailor," but look at a suit made by the Virginia street "Boss" and you will immediately see the point.

MY STOCK

Is carefully selected. It is of the very best of Foreign and Domestic Manufacture and I am prepared to make suits of the latest style, cut from the finest goods, at prices never before equalled. My work speaks for itself. I guarantee a fit in every case. Call and examine my samples and prices. Leave your measure and be happy. Don't be misled by the "Boss." You will always regret it if you do. Before giving your order call at my shop and see for yourself.
